

Highfield International Food Safety Culture Short Course

Edith Cowan University in partnership with Highfield International, is proud to present this Level 3 International Award Course: **Developing a Positive Food Safety Culture (Short Course)**.

This qualification is designed for supervisors of foodhandlers or managers of food businesses.

The knowledge and skills gained enables them to discover the essentials of cultivating a robust food safety culture. You will explore aspects such as:

- The importance of leadership and communication at all levels.

- How to promote a positive food safety culture in a business by motivating and training staff, regularly performing reviews of working practices, hygiene, risk assessment and regulatory compliance.

These practices will not only ensure the production of safe food, but will also assist you to operate a compliant food business whilst positively contributing to your organisation's triple bottom line.
